Re: Arkwood, Inc.
Omaha, Arkansas 72662
Superfund Site

Dear Ms. Izraeli:

It has recently been called to my attention that Donald Schaeffer allowed truck loads of contaminated soil from above site (after its closing) to be dumped on his property which is West of Arkwood, and which would drain into Crickett Creek.

Also loads of dirt were removed from the closed site and used as top soil for the Omaha School Ball Field and Playground. Omaha School is North of the site. Both the Schaeffer property and Omaha School are located very near Arkwood.

Could this be hazardous to the children and residents of the area?

Sincerely,

A concerned resident of
Omaha, Arkansas
